

PROFESSIONAL STANDARD
HOME INSPECTION

Agent Partnership: Smooth Inspections, Clear Communication

Professional Standard Home Inspection supports agents with a calm, professional process that helps clients feel informed and confident.

What you can expect working with me

- Clear scheduling + communication
- Professional, non-alarmist language that keeps clients grounded
- Photo-documented, easy-to-read reports. View a sample report
- Fast turnaround. Reports delivered within 24 hours of the end of the inspection
- Post-inspection support: I'm available for client questions well after the inspection

How I help you reduce friction

- I explain findings in plain language and separate maintenance from items that need attention.
- I help buyers understand priorities so the next steps are clear.
- When applicable, I provide tools that help organize repair requests.
- My report focuses on what the defect is, why it matters, and what type of professional can address it

Add-on services

- Radon testing
- Sewer scope camera inspection
- Wood destroying insect (termite) inspection, when requested, completed as a separate service by a qualified pest professional. There is no referral fee, kickback, or payment for sending work.
- Mold inspection
- Irrigation system inspection

Want a dependable inspector your clients will thank you for?
